

Time Limits for AB 904 Processing

PRC 4597.6.

(a) The department shall provide a time period for public comment, starting from the date of the **receipt** of a working forest management plan, as follows:

- (1) **Ninety** days for a working forest management plan for less than 5,000 acres.
- (2) **One hundred ten** days for a working forest management plan for between 5,000 and 9,999 acres.
- (3) **One hundred thirty** days for a working forest management plan for between 10,000 and 14,999 acres.

Note: Days below are WORKING days

Maximum reflects "COMPLETED BY" dates in AB 904

Minimums are theoretical, except Public Comment, which must be the specified amount

Process Step	Maximums		Minimums	
	w/o RMP	w/ RMP	w/o RMP	w/ RMP
Filing	30	40	7	7
PHI	30	30	7	7
Second Review	45	45	14	14
Public Comment	20	20	20	20
Director's Decision	30	30	1	1
Total Days	155	165	49*	49*

*The minimums described above are only theoretical. Because of the provisions outlined above, **the actual minimums for a given plan are 90, 110, and 130 CALENDAR days.**

Note: The only "close" conflict occurs if a plan of over 10,000 acres is submitted w/o a road plan. The maximums in statute call for the plan to have completed review in 125 WORKING days, but also adds the provision of needing 130 CALENDAR days for comment.
