Thembi,

I reviewed the October 2015 TRA2 plead, specifically the GHG portion, and found it to be well-written. I did notice that the language (page 26, line 2) suggests that evaluations should be at the “landscape level” and I am curious what that specifically means. I noted that the term is highlighted on my version, suggesting that this may have already been under consideration. Unfortunately I will be unable to attend the BOF meeting next week.

Thank you for the opportunity to comment,

Please review the GHG portion of the attached October 2015 TRA2 plead and return comments to Thembi.Borras@bof.ca.gov no later than December 1, 2015 for inclusion in the material to be considered at the December FPC meeting. Track changes and inserting comments is one method. Thank you for your consideration.
