

2018 Fire Plan Proposed Goals

Goal	Proposed Goal	Edited 2010 Fire Plan Goal
Goal 1	Identify and evaluate wildland fire hazards and recognize life, property and natural resource assets at risk, including watershed, carbon storage, habitat, social and other values of functioning ecosystems. Facilitate the sharing of all analyses and data collection across all ownerships for consistency in type and kind.	Identify and evaluate wildland fire hazards and recognize life, property and natural resource assets at risk, including watershed, <u>carbon storage</u> , habitat, social and other values of functioning ecosystems. Facilitate the sharing of all analyses and data collection across all ownerships for consistency in type and kind.
Goal 2	Promote and support local land use planning processes as they relate to a) protection of life, property, and natural resources from risks associated with wildland fire and b) individual landowner objectives and responsibilities.	Articulate and promote the concept of <u>Promote and support local</u> land use planning processes as it relates to fire risk <u>a) protection of life, property, and natural resources from risks associated with wildland fire</u> and <u>b)</u> individual landowner objectives and responsibilities.
Goal 3	Support and participate in the collaborative development and implementation of local, county and regional plans that address fire protection and landowner objectives.	Support and participate in the collaborative development and implementation of wildland fire protection plans and other local, county and regional plans that address fire protection and landowner objectives.
Goal 4	Increase fire prevention awareness, knowledge and actions implemented by individuals and communities to reduce human loss, property damage and impact to natural resources from wildland fires.	Increase <u>fire prevention</u> awareness, knowledge and actions implemented by individuals and communities to reduce human loss, and property damage <u>and impact to natural resources</u> from wildland fires. , such as defensible space and other fuels reduction activities, fire prevention and fire safe building standards.
Goal 5	Integrate fire and fuels management practices with landowner priorities and multiple jurisdictional efforts within local, state and federal responsibility areas.	Develop a method to Integrate fire and fuels management practices with landowner priorities and multiple jurisdictional efforts within local, state and federal responsibility areas.
Goal 6	Determine the level of resources necessary to effectively identify, plan and implement fire prevention strategies.	New Goal
Goal 7	Determine the level of fire suppression resources necessary to protect the values and assets at risk identified during planning processes.	Determine the level of fire suppression resources necessary to protect the values and assets at risk identified during planning processes.
Goal 8	Implement post-fire responsibilities and programs for natural resource assessment and recovery, including watershed protection, reforestation and ecosystem restoration.	<u>Implement</u> address post-fire responsibilities <u>and programs</u> for natural resource <u>assessment</u> and recovery, including watershed protection, reforestation and ecosystem restoration.
